

GARS Robotics and Automation.

GARS ROBOTICS AND AUTOMATION

Futuristic, Reliable, Affordable

Introduction

Greetings,

We appreciate your interest in GARS Robotics and Automation. As a trusted robotic integration partner, we specialize in programming, commissioning, and support for ABB, Fanuc, Kawasaki, and other leading industrial robots. Our focus is on delivering automation solutions that enhance performance, reduce downtime, and enable smart manufacturing. Thank you for considering us as your automation partner.

About Us,

GARS Robotics and Automation is a Bangalore-based robotic integration company specializing in industrial robot programming, commissioning, and automation support. We work with globally recognized robotic platforms such as ABB, FANUC, Kawasaki, and other leading automation systems. Our core expertise lies in ABB industrial robots. Our expertise includes robotic cell integration, cycle time optimization, troubleshooting, preventive maintenance, and on-site technical support for manufacturing environments.

We focus on delivering reliable and efficient automation solutions designed to improve productivity, accuracy, and operational safety. With a commitment to quality and long-term industrial support, GARS Robotics and Automation partners with manufacturing companies to enhance automation performance and reduce production downtime.

Our Vision,

Our vision is to become a trusted industrial automation partner known for high-quality integration, technical expertise, and long-term customer support.

Our Mission,

Our mission is to provide reliable and efficient robotic programming and automation support that enhances productivity, reduces downtime, and strengthens manufacturing performance.

GARS Robotics and Automation.

About our services,

- ✓ Robot Programming Support- Programming and configuration for ABB, Fanuc, and Kawasaki robots.
- ✓ Core Expertise- ABB Robotics-RAPID | IRC5 | Integration | Commissioning.
- ✓ Robotic System Integration- Integration of robots with conveyors, fixtures, grippers, and PLC systems.
- ✓ Commissioning & On-Site Support- Startup assistance, testing, cycle optimization, and production support.
- ✓ Troubleshooting & Maintenance- Quick issue diagnosis, fault recovery, and performance improvement.

We serve these industries,

- Appliances
- Automotive
- Chemical
- Consumer goods
- Cosmetics
- Electronics
- Fiber optics and glass
- Food and beverage
- Medical devices
- Pharmaceutical
- Plastics
- Power generation
- Textiles
- Tobacco

Robotic applications,

- Multi-station work cells
- Product packaging
- Large material handling
- Parts orientations and marking
- Vision inspection
- Grinding / Sanding
- Casting & Forging
- Arc , Mig , Tig & Spot welding
- Dispensing & Coating

GARS Robotics and Automation.

- Automated assembly
- AGV & Warehouse automation

Our elite customers,

- ABB Robotics,Bengaluru
- HUL-Hindustan Uniliver,Pan India
- JSW,Torungal
- JSW Paints,Torungal
- SCL-TVS group,Hosur
- Yizumi,Pune
- Sipra Engg,Nasik
- ABB-ELSP,Benagaluru
- FICOM Engg,Benagaluru
- Asiaan Metals & Castings,Bengaluru
- Ola,Krishnagiri And many others....
